**WELCOME LETTER**

On behalf of the American Society of Interventional Pain Physicians and the ASIPP Board of Directors, I am pleased to offer two unique educational events that can assist you in furthering your knowledge-base and skills in the specialty of Interventional Pain Management. These unique courses are designed for and dedicated to offering the highest level of education, training, and measurement of skills in our goal to provide better care and access for our patients.

The **Review Course and Cadaver Workshop in Vertebroplasty, Kyphoplasty, and Sacroplasty** and the **Comprehensive Review Course in Controlled Substance Management** are both designed to meet the unique needs of interventional pain physicians. With our excellent participant/instructor ratio, you will have the opportunity for personal interaction with our highly distinguished faculty of world-renowned teachers and lecturers, creating a thorough and compelling educational experience.

During the 2½-day **Review Course and Cadaver Workshop in Vertebroplasty, Kyphoplasty, and Sacroplasty**, you can improve existing skills and/or learn new skills. Whether you have been practicing interventional pain management for many years or are new to the field with basic skills, we are confident you will find this course and workshop to be beneficial – as it is essential that we continue learning and exploring new procedures and techniques in our specialty.

The **Comprehensive Review Course in Controlled Substance Management** is not only an essential element in Interventional Pain Management, but also beneficial to you as a physician and to your practice. Controlled substance management is an area which is critical to our field yet one in which few have adequate training. In today's environment of ever-changing regulations and litigations, we cannot afford to ignore this important and complex subject. On Sunday, May 17, we offer the opportunity for you to sit for the **American Board of Interventional Pain Physicians Competency Examination**. By successfully completing the controlled substance management competency examination, you are demonstrating to your colleagues, patients, insurers, payors, etc. that you understand the complexities of this aspect of our unique specialty.

We trust you will be eager to join us for this exceptional opportunity for professional enhancement. The seminars will be conducted at the Memphis Marriott Downtown and the Medical Education and Research Institute (MERI) in Memphis, TN. Make your plans early to attend. We look forward to seeing you in Memphis. If you have any questions, please feel free to contact me at 2831 Lone Oak Road, Paducah, KY 42003, phone: 270-554-8373 ext. 101, fax: 270-554-5394, or e-mail: drm@asipp.org

Sincerely,

Laxmaiah Manchikanti, MD

Description

This 2½-day comprehensive review course and hands-on cadaver workshop will describe and demonstrate improved skill levels of vertebroplasty, kyphoplasty and sacroplasty. The desired outcome is for physicians to integrate various aspects of the interventional pain management techniques of vertebroplasty, kyphoplasty and sacroplasty in treating patients in order to provide better outcomes and reduced side effects for patients.

The 1-day cadaver workshop includes hands-on workshop of interventional techniques consisting of vertebroplasty, kyphoplasty and sacroplasty by utilizing cadavers. Participants will experience a comprehensive and intense learning opportunity, focusing on the evolution of vertebroplasty, kyphoplasty and sacroplasty.

This program is designed for interventional pain physicians as a review, skills improvement, or to assist in obtaining credentials. It is the most in-depth, comprehensive, and individualized program available for vertebroplasty, kyphoplasty and sacroplasty training in the United States, featuring maximum hands-on training with cadavers in a state-of-the-art facility and maximum ability to interact with other participants with pre- and post-didactic courses.

Each cadaver station is limited to 6-8 participants. The workshop is limited to 70 participants with 10 cadaver stations. C-arms and state-of-the-art equipment are utilized in this course. Participants are requested to dress in casual attire or scrubs. Leaded aprons and thyroid shields will be provided, however, participants are advised to bring their own protective eyewear.

ASIPP's vertebroplasty, kyphoplasty and sacroplasty review course and cadaver workshop is designed for interventional pain physicians. The seminar is planned as a CME activity to prepare physicians seeking to perform the procedures and credentialing as in-depth review of the subject.

Objectives

After this course, participants should be able to:

- Describe the delivery of multiple aspects of interventional pain management.
- Demonstrate improved skill levels of interventional techniques.
- Describe the techniques of Vertebroplasty, Kyphoplasty and Sacroplasty

Outcome

Improve physician skill levels and knowledge of the interventional techniques of Vertebroplasty, Kyphoplasty and Sacroplasty.

Target Audience/Purpose

The ASIPP Vertebroplasty, Kyphoplasty and Sacroplasty Review Course and Cadaver Workshop is designed for interventional pain physicians. The seminar is planned as a CME activity as an in-depth review of interventional techniques. This review course will be based on the specifications of the cadaver workshop. The cadaver workshop is offered to improve the delivery of multiple aspects of interventional pain management. It is designed to improve skill levels and knowledge of interventional techniques, focusing on vertebroplasty, kyphoplasty and sacroplasty so that multiple aspects of interventional pain management can be used when treating patients. The desired outcome is to integrate multiple aspects of vertebroplasty, kyphoplasty and sacroplasty in treating your patients so that patients have better outcomes and reduced side effects.

Accreditation Statement

This CME activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the Joint Sponsorship of the Institute for Medical Studies and the American Society of Interventional Pain Physicians. The Institute for Medical Studies is accredited by the ACCME to provide continuing medical education for physicians.

Category I Credit

The Institute for Medical Studies designates this educational activity for a maximum of 20.25 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Cadaver Workshop Site

Medical Education & Research Institute,
44 South Cleveland, Memphis, TN 38104
MERI is a non-profit institute located in the heart of the downtown medical center in Memphis, Tennessee. The 27,000-square-foot facility houses three anatomic teaching laboratories; seven private, high-security research suites; and an auditorium equipped with the most state-of-the-art audiovisual systems available, including 3-D systems for viewing videos. MERI specializes in producing world-class educational programs, offering the most current information on the latest medical techniques and products.

Americans with Disabilities Act & Special Services

Organizers fully comply with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please contact the organizers at (270) 554-9412 at least 10 days prior to the conference.

There is no commercial support for this course.

No duplication or distribution of materials, or recording of lectures associated with this conference is permitted without express written consent of the American Society of Interventional Pain Physicians. All rights reserved.

ACCOMMODATIONS

Memphis Marriott Downtown
250 North Main Street, Memphis TN 38103
Phone 1-901-527-7300 / Toll Free 1-888-557-8740
Fax 1-901-214-3711

Inform the agent that you are booking for American Society of Interventional Pain Physicians. We have secured a group room rate of \$169. Reserve rooms early—all unbooked rooms will be released April 23, 2009.

The Vertebroplasty, Kyphoplasty and Sacroplasty review course and cadaver workshop are supported by unrestricted grants from **Cardinal Health, Medtronic, Smith & Nephew** and **COOK Medical**.

- Mail:** Mail this registration form with payment—check or Visa/MasterCard/Discover/American Express information—to: ASIPP, 81 Lakeview Drive, Paducah, KY 42001

Comprehensive Review Course In Controlled Substance Management

Statement of Need

This two day comprehensive review course is planned as a CME activity to prepare for competency certification or an in-depth review in areas of controlled substance management. This review course is based on the American Board of Interventional Pain Physicians' specifications for competency certification examinations.

The course will provide an in-depth evaluation of the knowledge of the participants with extensive review of subject(s). As part of this comprehensive, in-depth, two day review course, ASIPP will provide participants with a syllabus with outlines of the lectures and accompanying questions.

Educational Objectives/Target Audience

This two day comprehensive review course is intended to present interventional pain management specialists, nurses, and other healthcare providers an in-depth review in the area of Controlled Substance Management as it pertains to Interventional Pain Management.

Educational objectives for Controlled Substance Management:

- Review basic science and core concepts
- Discuss pharmacology
- Identify clinical use and effectiveness
- Identify substance abuse
- Discuss topics with documentation, regulatory issues, legal issues, and ethical issues

Outcome

Physicians will learn to operate comprehensive interventional pain care centers more efficiently, so that patients will receive the best care available.

Americans with Disabilities Act & Special Services

Organizers fully comply with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any participant in this educational activity is in need

of accommodations, please contact the organizers at (270) 554-9412 at least 10 days prior to the conference.

Accreditation Statement

This CME activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the Joint Sponsorship of the Institute for Medical Studies and the American Society of Interventional Pain Physicians. The Institute for Medical Studies is accredited by the ACCME to provide continuing medical education for physicians.

Controlled Substance Management Category I Credit

The Institute for Medical Studies designates this educational activity for a maximum of 15 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

No duplication or distribution of materials, or recording of lectures associated.

There is no commercial support for this activity.

Registration Form

REGISTRATION INFORMATION

A limited number of participants will be allowed in the Course. Please complete the enclosed registration form and return to ASIPP with payment (your application will not be processed if payment does not accompany registration form). ASIPP reserves the right to cancel this Course and/or Exam upon reasonable notice and will assume no financial obligation to registrants for cancellation of the course for reasons beyond its control. Registration fees will be refunded. However, costs incurred by the registrants, such as airline or hotel fees or penalties, are the responsibility of the registrants.

Registrants who are not accepted into this workshop will receive notice by mail with their returned checks.
