**Comprehensive Review Course in
Controlled Substance Management and Competency Exam**
**Comprehensive Review Course in
Coding, Compliance and Practice Management and Exam**

On behalf of the Board of Directors of the American Society of Interventional Pain Physicians (ASIPP), I would like to invite you to one of the most comprehensive and useful educational conferences available anywhere. The ASIPP Comprehensive Review Courses and Exams in Controlled Substance Management and Coding, Compliance and Practice Management will be held at the Aster Crowne Plaza in New Orleans, LA during the week of August 11-16, 2009.

The Comprehensive Review Course will be held concurrently at the same venue as the 7th Annual Comprehensive Board Review Course and the ABIPP Part 1 Exam. **Please note that you can only register for the Board Review Course OR the Controlled Substance Management and Coding, Compliance and Practice Management Review Course (not both).**

Since we began offering the Competency Review course in 2005, it has become recognized as a “must attend” training event for interventional pain physicians and physicians just entering interventional pain management or in-training and physicians appearing for board examinations by various boards. The Coding, Compliance and Practice Management is so beneficial to practices, both office based and ASCs, that many physicians send their staff early to keep them current on the cutting edge aspects of practice management.

This intensive review course is designed to present interventional pain management specialists and other healthcare providers an in-depth review of multiple areas of interventional pain management—the areas we were never taught, yet are crucial for our survival. The course features many nationally recognized experts in pain management billing and coding and practice management as well as controlled substance management. In today’s environment of regulations and litigations, you can’t afford not to broaden your knowledge and refresh your skills in these areas.

In addition to the review course, the American Board of Interventional Pain Physicians (for physicians) and the American Association of Allied Pain Management Professionals (for non-physicians) offers the opportunity for examination in order for physicians to obtain competency certification to and non-physicians to obtain associate certificates in Controlled Substance Management and Coding, Compliance, and Practice Management.

We hope you will join us in exciting New Orleans, for this once-a-year educational event. Whether you have practiced pain medicine or interventional pain management for years, if you are new to the discipline, or if you are in training—the ever-changing field of medicine, practice management, and rules and regulations associated with these specialties makes this an essential course for you.

Sincerely,

Laxmaiah Manchikanti, MD
Chief Executive Officer and Chairman of the Board, ASIPP

Comprehensive Review Course in Controlled Substance Management and Competency Exam Comprehensive Review Course in Coding, Compliance and Practice Management and Exam

AUGUST 11-16, 2009

Statement of Need

This two day comprehensive review course is planned as a CME activity to prepare for competency certification or an in-depth review in areas of controlled substance management and coding, compliance, and practice management. This review course is based on the American Board of Interventional Pain Physicians' specifications for competency certification examinations.

This course will provide in-depth evaluation of the knowledge of the participants with extensive review of subject(s).

As part of this comprehensive, in-depth, intense two-day review course, ASIPP will provide participants with a syllabus with outlines of the lectures and accompanying questions.

Educational Objectives/Target Audience

This two day comprehensive review course is intended to present interventional pain management specialists, nurses, and other healthcare providers an in-depth review of multiple areas of interventional pain management including controlled substance management.

Educational Objectives for Controlled Substance Management:

- Review basic science and core concepts
- Discuss pharmacology
- Identify clinical use and effectiveness
- Identify substance abuse
- Discuss topics with documentation, regulatory issues, legal issues, and ethical issues

Educational Objectives for Coding, Compliance, and Practice Management:

- Discuss documentation
- Review practice management topics
- Discuss coding and billing
- Examine compliance issues

Outcome

Physicians will learn to operate comprehensive interventional pain care centers more efficiently, so that patients will receive the best care available.

Americans with Disabilities Act And Special Services

Organizers fully comply with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please contact the organizers at (270) 554-9412 at least 10 days prior to the conference.

There is no commercial support for this activity.

No duplication or distribution of materials, or recording of lectures associated with this conference is permitted without express written consent of the American Society of Interventional Pain Physicians. All rights reserved.

Accreditation Statement

This CME activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the Joint Sponsorship of the Institute for Medical Studies (IMS) and the American Society of Interventional Pain Physicians. The Institute for Medical Studies is accredited by the ACCME to provide continuing medical education for physicians.

Category I Credit

The Institute for Medical Studies designates this educational activity for a maximum of 31.5 *AMA PRA Category 1 Credits* for both courses. Physicians should only claim credit commensurate with the extent of their participation in the activity.

RN, NP and PA Credit

Nurses may claim credit for activities approved for *AMA PRA Category 1 Credits* in most states, for up to 50% of the nursing requirement for recertification. This activity is designated for up to 31.5 *AMA PRA Category 1 Credits*.

Nurse Practitioners: The American Academy of Nurse Practitioners (AANP) accepts 31.5 *AMA PRA Category 1 Credits* from organizations accredited by the ACCME. IMS is accredited to provide continuing medical education for physicians and will provide nurse practitioners who successfully complete each activity with a certificate of participation indicating that the activity was designated for 31.5 *AMA PRA Category 1 Credits*.

The American Academy of Physician Assistants (AAPA) accepts *AMA PRA Category 1 Credits* from organizations accredited by the ACCME. The provider of this program, the Institute for Medical Studies, is accredited by the ACCME and designates this educational activity for a maximum of 31.5 *AMA PRA Category 1 Credits*. Physician assistants should only claim credit commensurate with the extent of their participation in the activity.

Accommodations

Astor Crowne Plaza - French Quarter
739 Canal St. at Bourbon, New Orleans, LA 70130

Examination Composition

1. DOCUMENTATION 20%

- Documentation Basics
- Documentation in Ambulatory Surgical Centers
- Documentation in an Interventional Pain Management Office
- Documentation for Hospital Outpatient Department
- Documentation for Evaluation and Management Services
- Documentation for Interventional Procedures
- Documentation Requirements of Controlled Substance Use
- Understanding Coverage Determinations
- Documentation of Medication Samples
- Diagnostic Interventional Techniques in Chronic Spinal Pain
- Therapeutic Interventional Techniques in Chronic Spinal Pain
- Electronic Medical Records in the Office
- Electronic Medical Records in the Ambulatory Surgery Center
- Informed Consent

- Sexual Boundaries
- Problem Patients and Informed Consent
- Research in Your Practice

3. CODING AND BILLING 40%

- Diagnostic Coding Systems and Procedural Coding Systems
- Correct Coding Policies
- Local Medial Review Policies
- Medicare and Medicaid Regulations and Third Party Payer Regulations
- Appeals Process for Medicare Part B Denials
- Medicaid Denials and Appeals
- Third-Party Payer Denials and Appeals
- Evaluation and Management Services
- Physical Therapy Services and Psychological and Psychiatric Services
- Radiological Services
- Interventional Techniques

2. PRACTICE MANAGEMENT 20%

- Developing an Interventional Pain Practice
- Development of an Ambulatory Surgery Center
- Guidelines for Practice of Interventional Techniques
- Physical Therapy and Behavioral Health Services
- Office Management and Employee Management
- Medical Liability Issues, Outsourcing and Compliance, and Risk Management

4. COMPLIANCE 20%

- Fraud and Abuse in Interventional Pain Management
- Compliance for Interventional Pain Management Coding
- Prevention Against Audits and Investigations
- The Office of Inspector General Compliance Programs
- HIPAA Compliance, Stark Law Compliance, and OSHA Compliance
