## COMPREHENSIVE IMAGING CONFERENCE

COMPREHENSIVE IMAGING REVIEW IN INTERVENTIONAL PAIN MANAGEMENT AND  
COMPETENCY CERTIFICATION IN FLUOROSCOPIC INTERPRETATION AND RADIATION SAFETY

### From The Chairman

On behalf of the American Society of Interventional Pain Physicians (ASIPP), it is my honor and privilege to invite you to attend the Comprehensive Imaging Review in Interventional Pain Management & Competency Certification in Fluoroscopic Interpretation and Radiation Safety on September 17-18, 2010, in Memphis, TN.

This comprehensive seminar is designed to provide interventional pain physicians with the ability to understand radiological evaluations and fluoroscopic interpretation. In addition, we offer to all interested physicians the opportunity to sit for a radiation safety competency examination.

This course is an essential component for interventional pain physicians and will provide educational opportunities to assist you in providing high quality, competent, safe, accessible and cost-efficient services to your patients. This course, as with all ASIPP courses, focuses on doing the right things, the right way and for the right reasons.

Our faculty consists of many experts and authorities in the field of radiographic technique. The course will also provide you with an opportunity to network with other interventional pain physicians. We are confident this is one ASIPP course you will not want to miss.

We are confident that you will benefit from this exceptional opportunity for professional enhancement. The seminars will be conducted at The Peabody Hotel in Downtown Memphis. Make your plans early to attend. We look forward to seeing you in Memphis. If you have any questions, please feel free to contact me at 2831 Lone Oak Road, Paducah, KY 42003, phone: 270-554-8373 ext. 101, fax: 270-554-5394, or e-mail: [drm@asipp.org](mailto:drm@asipp.org)

Sincerely,

Laxmaiah Manchikanti, MD

Chairman of the Board and Chief Executive Officer, ASIPP

# COMPREHENSIVE IMAGING CONFERENCE

COMPREHENSIVE IMAGING REVIEW IN INTERVENTIONAL PAIN MANAGEMENT AND  
COMPETENCY CERTIFICATION IN FLUOROSCOPIC INTERPRETATION AND RADIATION SAFETY

September 17-18, 2010  
Memphis, Tennessee

## ASIPP Statement of Need

This 2-day Comprehensive Imaging Review Course is planned as a CME activity to prepare physicians seeking competency certification in or an in-depth review for the interventional pain physician or other staff in areas of fluoroscopic interpretation and radiation safety. This course will provide in-depth evaluation of the knowledge of the participants with extensive review of subject(s).

As part of this comprehensive, in-depth, intense 2-day Review Course, we will provide you with the following:

Syllabus with outlines of the lectures and accompanying questions, distributed at the meeting.

## Accreditation Statement

The September workshop is a CME activity that has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the Joint Sponsorship of the Institute for Medical Studies and the American Society of Interventional Pain Physicians. The Institute for Medical Studies is accredited by the ACCME to provide continuing medical education for physicians.

## Category I Credit

The Institute for Medical Studies will determine these educational activities for up to 14.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

## Americans with Disabilities Act

Organizers fully comply with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please contact the organizers at (270) 554-9412 at least 10 days prior to the conference.

## Educational Objectives

The 2-day intensive review course is intended to present interventional pain management specialists and other providers an in-depth review of multiple areas of interventional pain management including fluoroscopic interpretation and radiation safety, in order for participants to demonstrate skills for competency certification.

## Outcome

Prepare physicians for competency certification and provide physicians and other healthcare professionals with an in-depth study of interventional pain management, including fluoroscopic interpretations and radiation safety so that patients are not exposed to unsafe levels of radiation, and they receive the most up-to-date diagnosis and treatment afforded in pain management.

## There is no commercial support for this review course.

*No duplication or distribution of materials, or recording of lectures associated with this conference is permitted without express written consent of the American Society of Interventional Pain Physicians. All rights reserved.*
