Interventional Techniques Review Course And Comprehensive Interventional Cadaver Workshop

FROM THE CHIEF EXECUTIVE OFFICER

On behalf of the Board of the American Society of Interventional Pain Physicians, it is my privilege and pleasure to invite you to attend the Interventional Techniques Review Course and Comprehensive Interventional Cadaver Workshop this October 20–22 in Memphis, TN. We have created a state-of-the-art educational program of didactic courses covering various interventional techniques, followed by a comprehensive hands-on Inter-

ventional Cadaver Workshop to meet the needs of interventional pain physicians.

This intensive review course and comprehensive cadaver workshop are planned as a CME activity to prepare physicians seeking board certification by ABIPP, and as an in-depth review of interventional techniques. Participants will experience a comprehensive and intense learning opportunity, focusing on interventional pain management techniques. During this three day event you can improve existing skills, learn new skills, prepare for the interventional techniques certification examination, or prepare for the board examination.

Whether you have been practicing interventional pain management for many years or are new to the field, we are confident you will find this review course and cadaver workshop to be beneficial, as it is essential to learn new and relevant information to survive in the new millennium.

We trust you will be as excited as we are about this exceptional opportunity for professional enhancement. The seminar will be conducted at the Whispering Woods Hotel and Conference Center and the world famous Medical Education and Research Institute (MERI) in Memphis, TN.

Make your plans early to attend. We look forward to seeing you in Memphis.

Sincerely,

Laxmaiah Manchikanti, MD
Chief Executive Officer, ASIPP

Target Audience /Purpose

This intensive Review Course is planned as a CME activity to prepare physicians seeking board certification by ABIPP or as an in-depth review of Interventional Techniques. This Review Course will be based on the specifications of the Cadaver Workshop and will assist in preparation for ABIPP Part I and Part II (FIPP examination).

Objectives

Describe the delivery of multiple aspects of interventional pain management, demonstrate improved skill levels of interventional techniques.

Outcome: so that you can integrate multiple aspects of interventional pain management in treating your patients so that patients have better outcomes and reduced side effects.

Accreditation Statement

This activity has been planned and implemented in accordance with Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Louisville and the American Society of Interventional Pain Physicians. The University of Louisville is accredited by the ACCME to provide continuing medical education for physicians.

Category I Credit

The University of Louisville Continuing Health Sciences Education designates this educational activity, the Interventional Techniques Review Course, for a maximum of 8 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Americans with Disabilities Act

Organizers fully comply with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please contact the organizers at (270) 554-9412 at least 10 days prior to the conference.

Accommodations

Whispering Woods Hotel and Conference Center

11200 East Goodman Road
Olive Branch, MS 38654
Telephone: (662) 895-2941
Fax: (662) 895-1590

Inform agent that you are booking for ASIPP. The American Society of Interventional Pain Physicians has secured a group room rate of \$119.00/night. Reserve rooms early— all unbooked rooms will be released September 19, 2006.

There is no commercial support for this workshop.

Workshop Site

Medical Education & Research Institute, 44 South Cleveland, Memphis, TN 38104

MERI is a non-profit institute located in the heart of the downtown medical center in Memphis, Tenn. The 27,000-square-foot facility houses three anatomic teaching laboratories; seven private, high-security research suites; and an auditorium equipped with the most state-of-the-art audiovisual systems available, including 3-D systems for viewing videos. MERI specializes in producing world-class educational programs, offering the most current information on the latest medical techniques and products.

Description

This 1.5 day workshop includes hands-on workshop of interventional techniques, using cadavers. Participants experience a comprehensive and intense learning opportunity, focusing on interventional pain management techniques.

This program is designed for interventional pain physicians, for a review, skills improvement or to assist in preparation for ABIPP Part I qualifications (if criteria are not already met) and Part II (FIPP Examination). It is the most in-depth, comprehensive, and individualized program available in interventional pain management, featuring maximum hands-on training with cadavers in a state-of-the-art facility and maximum ability to interact with other participants.

Each workshop (cadaver station) is limited to a maximum of 8 participants.

The workshop is limited to approximately 70 participants with 10 cadaver stations.

Participants can choose the level of participation: Basic, Intermediate or Advanced.

C-arms and state-of-the-art equipment are utilized in this course. Participants are requested to dress in casual attire or scrubs. Lead aprons and thyroid shields will be provided. However, participants are advised to bring their own protective eyewear.

Accreditation Statement

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Louisville and the American Society of Interventional Pain Physicians. The University of Louisville is accredited by the ACCME to provide continuing medical education for physicians.

Category I Credit

The University of Louisville Continuing Health Sciences Education designates this educational activity, the Comprehensive Interventional Cadaver Workshop, for a maximum of 14.75 *AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Americans with Disabilities Act and Special Services

Organizers fully comply with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please contact the organizers at (270) 554-9412 at least 10 days prior to the conference.

Target Audience / Purpose

The ASIPP comprehensive Interventional Cadaver Workshop is designed for interventional pain physicians in basic, intermediate or advanced stages of technical and professional ability. The workshop is offered to improve the delivery of multiple aspects of interventional pain management. It is designed to demonstrate improve skill levels and knowledge of interventional techniques, focusing on spinal and other injection techniques so that multiple aspects of interventional pain management can be used when treating patients. Participants will also perform spinal and other injection techniques. The desired outcome is to integrate multiple aspects of interventional pain management in treating your patients so that patients have better outcomes and reduced side effects. Subjects and procedures are as follows:

BASIC	INTERMEDIATE	ADVANCED
Caudal Epidural	Cervical Facet Joint Nerve Radio frequency	Thoracic Discography
Lumbar Interlaminar	Thoracic Facet Joint Nerve Radio frequency	Cervical Discography
Thoracic Interlaminar	Lumbar Facet Joint Nerve Radio frequency	Intradiscal therapies, IDET & Nucleoplasty
Cervical Interlaminar	Lumbar Discography	Percutaneous Disc Decompression. <i>Nucleotome</i>
Sacroiliac Joint Injections	Lumbar Transforaminal	Spinal Cord Stimulation
Lumbar Facet Joint Blocks Intraarticular injections, medial branch blocks	Stellate Ganglion Blocks	Intrathecal Implantable Pumps
Thoracic Facet Joint Blocks Intraarticular injections, medial branch blocks	Lumbar Sympathetic and Hypogastric Plexus Blocks	Vertebroplasty
Cervical Facet Joint Blocks Intraarticular injections, medial branch blocks	Percutaneous Adhesiolysis	Celiac Plexus and Splanchnic Nerve Blocks
