American Society of Interventional Pain Physicians

The Voice of Interventional Pain Management

Since 1998

presents

A Comprehensive Interventional Cadaver Workshop:

Lumbar, Thoracic, and Cervical Basic, Intermediate, and Advanced

**December 3 - 4, 2005
Saturday and Sunday**

**Medical Education and Research Institute (MERI)
Memphis, Tennessee**

Description

This 1½-day workshop will include both lectures and hands-on work, using cadavers. Participants experience a comprehensive and intense learning opportunity, focusing on interventional pain management techniques.

This program is designed for **interventional pain physicians**. It is the most in-depth, comprehensive, and individualized program available in interventional pain management, featuring maximum hands-on training with cadavers in a state-of-the-art facility and maximum ability to interact with other participants.

Each workshop (cadaver station) is limited to a **maximum of 8 participants**.

The workshop is limited to approximately **70** participants with **10** cadaver stations.

Participants can choose the level of participation: Basic, Intermediate or Advanced.

C-arms and state-of-the-art equipment are utilized in this course. Participants are requested to dress in casual attire or scrubs. Leaded aprons and thyroid shields will be provided. **However, participants are advised to bring their own protective eyewear.**

Accreditation Statement

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Louisville and the American Society of Interventional Pain Physicians. The University of Louisville is accredited by the ACCME to provide continuing medical education for physicians.

Target Audience/Purpose
