A Comprehensive Interventional Cadaver Workshop

Description

This 1 1/2 day workshop will include both lectures and hands-on work using cadavers. This workshop will allow the participant to experience a comprehensive and intense learning opportunity focusing on interventional pain management techniques.

This program is designed for interventional pain physicians. This program is the most in-depth, comprehensive, and individualized program available in interventional pain management with maximum hands-on training with cadavers in a state-of-the-art facility with maximum ability to interact with each other.

Each workshop (cadaver station) is limited to a maximum of 8 participants.

Workshop is limited to 70 participants with 10 cadaver stations.

Participants can choose the areas of participation.

C-arms and state-of-the-art equipment are utilized in this course. Participants are requested to dress in casual attire or scrubs. Leaded aprons and thyroid shields will be provided. However, participants are advised to bring their own protective eye-wear.

Purpose

ASIPP's comprehensive workshop is offered to improve multiple aspects of interventional pain management. The workshop is designed for participants to learn interventional pain management techniques.

Accreditation Statement

This activity has been planned and implemented in accordance with Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Louisville and the American Society of Interventional Pain Physicians.

Contents

Contents

The Cadaver Workshop is designed for practitioner's in any stage of technical and professional ability. It is designed to improve skill levels and knowledge of interventional techniques, focusing on spinal injection techniques.

Workshops:

- Subjects and procedures covered include:
 - Fluoroscopic Anatomy
 - Cervical, Thoracic, and Lumbar epidural injections
 - Cervical, Thoracic, and Lumbar facet joint interventions
 - Cervical, Thoracic, and Lumbar Discography
 - Percutaneous adhesiolysis

Didactics:

- Pitfalls in Documentation in Interventional Pain Management*
- Pitfalls in Diagnosis of Spinal Pain*
- Pitfalls in Performing Interventional Techniques*

Course Directors:

Laxmaiah Manchikanti, MD
Medical Director,
Pain Management Center of Paducah
President, ASIPP
Paducah, KY

Mark V. Boswell, MD, PhD
Chief, Division of Pain Medicine
Case Western Reserve University
School of Medicine
Cleveland, OH

Faculty:

Distinguished Faculty of Academicians
and Private Practitioners:
