2023 ASIPP® ANNUAL MEETING

LOOKING BACK AT OUR ROOTS AND INTO THE FUTURE AT OUR 25TH ANNUAL MEETING!

It is our pleasure to invite you to the American Society of Interventional Pain Physicians' – ASIPP® – 2023 Annual Meeting, where **we are remembering our roots and revisiting why ASIPP has been The Voice of Interventional Pain Management since 1998**. This **25th Annual Meeting** will be held Thursday, March 16 through Saturday, March 18, 2023 at the Gaylord National Harbor Resort & Convention Center in National Harbor, Maryland.

This educational program will meet the needs of physicians, mid-level providers, and staff. This program is our best yet and truly has something for everyone! ASIPP® will continue its tradition of providing excellence in educational programming for the IPM community. This year's educational events will include practice management organization and growth; emerging concepts in peripheral nerve stimulation; regenerative medicine; interventional techniques; disease modifying therapies; abstract presentations; an innovation summit with a strong focus on new and evolving technologies; a Resident/Fellow section for emergence into practice, a special forum for Advanced Practitioners, and much more.

We offer an in-depth practice management section that addresses how to expand and develop a practice; monitoring financial reports; reducing practice risk; and so much more. This session is ideal for physicians, but critical for staff. Invest in your practice by bringing your staff to the meeting with you. Whether you are a member of ASIPP®, or have yet to become a member, this event will provide information you need to help you in the evolving specialty of interventional pain management.
