IMPORTANT MESSAGE FROM THE COURSE DIRECTORS

Dear Colleague,

We very much look forward to your participation in our upcoming conference!

This CME activity is provided as a service to physicians by The American Society of Interventional Pain Physicians (ASIPP) together with The Orthobiologic Institute (TOBI).

This CME activity will feature highly credentialed expert speakers presenting the latest science-based information in the rapidly evolving field of orthobiologic and regenerative medicine.

We appreciate your investment in the TOBI meeting and work to increase the value each year. We are pleased to inform you that we have extended the hands-on cadaver lab to a full-day session. To facilitate your preparation for the lab, we've introduced a comprehensive live virtual review course on August 16. As an added benefit, a non-CME recording will be provided at no cost to lab registrants and offered as an optional add-on for 2-day symposium registrants.

Please note that the CME activity is for continuing medical education purposes only, and is intended to assist the practitioner in visualizing and understanding

the procedures presented. This CME activity is designed to act as an adjunct to other instructional information and one-on-one training and certification that the practitioner may receive.

Importantly, please understand that this CME activity does not constitute training or certification to engage in or practice any such practices, techniques, services, or processes, or otherwise utilize the information provided. The information provided in the course should be incorporated into practice only after thorough analysis by the practitioner and receiving one-on-one training. This CME activity is not intended to dictate physician and/or nurse practices.

We would also like to remind you that the CMEs you earn at the TOBI webinar, lab, and symposium meet the 30 AMA PRA Category 1 Credits™ in regenerative medicine for ABIPP Competency Certification in Regenerative Medicine.

We hope to see you in Las Vegas in August!

Sincerely,

Laxmaiah Manchikanti, MD; Steven Sampson, DO, *Course Directors*

CME AND GENERAL INFORMATION

CME ACTIVITY NEED, GOAL, AND LIMITATIONS

As evidenced by the establishment of departments of regenerative medicine within major academic medical centers, and by the evolution of regulatory positions, the field of orthobiologics and regenerative medicine is rapidly growing. In order to have an understanding of possible future directions in healthcare, physicians have a need to update their knowledge of this field and how it may affect their patients and their practices. The overall goal this CME activity is to present physicians and mid-level practitioners with an in-depth review of multiple areas of orthobiologic and regenerative medicine. All listed faculty are invited and subject to change.

OBJECTIVES

Upon completion of this CME activity, participants should be better able to

1. Discuss established and rapidly evolving concepts in regenerative medicine and orthobiologics.
2. Describe evolving regenerative medicine treatment options so as to be better prepared to answer patients' questions about these practices and procedures.

IMPORTANT LIMITATION OF THIS CME ACTIVITY

This CME activity is for continuing medical education purposes only, and is intended only to assist the practitioner in visualizing and understanding the procedures presented. This CME activity is designed to act as an adjunct to other instructional information and one-on-one training and certification that the practitioner may receive.

Importantly, participation in this CME activity does not constitute training or certification to engage in or practice any techniques, services, or processes presented in the CME activity. Any information provided in this CME activity should be incorporated into practice only after thorough analysis by the practitioner and receiving one-on-one training. This CME activity is not intended to dictate physician and/or nurse practices, nor to promote adoption of any practices presented. Each practicing physician is responsible for the techniques he or she may choose to practice with respect to any procedures discussed or presented in this CME activity.

ACCREDITATION AND CME CREDIT

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The Institute for Medical Studies and The American Society of Interventional Pain Physicians. The Institute for Medical Studies is accredited by the ACCME to provide continuing medical education for physicians.

ASIPP® is now an ABA Registered CME Provider.

CATEGORY 1 CREDIT

The Institute for Medical Studies designates this live activity for a maximum of 31.5 AMA PRA Category 1 Credits™. Please note that 7.5 AMA PRA Category 1 Credits™ are designated for the didactics webinar, 8.5 AMA PRA Category 1 Credits™ are designated for the cadaver lab, and 15.5 AMA PRA Category 1 Credits™ are designated for the symposium.

Physicians of Osteopathic Medicine — the American Osteopathic Association (AOA) accepts AMA PRA Category 1 Credits™ as AOA Category 2-B credit.

PA, NP, AND RN CREDIT

Physician Assistants: The American Academy of Physician Assistants (AAPA) accepts AMA PRA Category 1 Credits™ from organizations accredited by the ACCME.

Nurse Practitioners: The American Academy of Nurse Practitioners (AANP) accepts AMA PRA Category 1 Credits™ from organizations accredited by the ACCME.

APNs/RNs: Most State Nursing Boards accept CE activities designated for AMA PRA Category 1 Credits™ towards re-licensure requirements. Check with your board to determine whether they will accept this CME activity towards your re-licensure. This activity is designated for up to 31.5 AMA PRA Category 1 Credit(s)™

AMERICANS WITH DISABILITIES ACT AND SPECIAL SERVICES

Organizers fully comply with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please contact the organizers at 270.554.9412 at least 10 days prior to the conference.

ASIPP® does not permit duplication or distribution of materials, or recording of lectures associated with this conference without the express written consent of the American Society of Interventional Pain Physicians. All rights reserved.

THE ORTHOBIOLOGIC INSTITUTE IN COLLABORATION WITH THE AMERICAN SOCIETY OF INTERVENTIONAL PAIN PHYSICIANS 16TH ANNUAL TOBI HANDS-ON CADAVER LAB SCHEDULE

Program Directors: Laxmaiah Manchikanti, MD; Steven Sampson, DO; and John Ferrell, MD

THURSDAY, AUGUST 21, 2025 *Topics and speakers are subject to change*

8:00 AM – 5:30 PM (All times listed in Pacific Time) | Viticus Center, Oquendo Campus, 2425 E Oquendo Rd Las Vegas, NV 89120

Participants will select one of three hands-on procedural tracks based on their interest and training level. Each track includes a full day of expert-guided cadaver lab training, advanced techniques, and regenerative medicine applications.

Daily Schedule (All Tracks):

7:30 am	Shuttle arrives at Lab/Registration and Breakfast begins
8:00 am – 9:00 am	Welcome & Orientation — Laxmaiah Manchikanti, MD and John Ferrell, MD
9:00 am – 12:00 pm	Morning Hands-On Training
12:00 pm – 1:00 pm	Lunch (Provided)
1:00 pm – 5:30 pm	Afternoon Hands-On Rotations

TRACK 1: MSK ULTRASOUND + PRP FUNDAMENTALS

Ideal for: Beginner to intermediate clinicians seeking foundational skills.

MSK Ultrasound: Anatomy, Identification, and Needle Guidance
PRP & BMAC Processing + Shockwave & Laser Demo
Ultrasound-Guided Tenotomy Techniques
Shoulder Injection Techniques (US-Guided)
Elective - BMAC or MFAT Cadaver Procedure
Open Lab & Faculty Q&A
Instructors: **All Lab Faculty**

TRACK 2: BMAC, MFAT, AND INTRAOSSEOUS (IO) TECHNIQUES

Ideal for Intermediate providers focused on regenerative medicine procedures.

Bone Marrow Aspiration Technique & Processing
MFAT Harvest and Injections
Intraosseous (IO) Knee Techniques
Intraosseous (IO) Hip Techniques
Elective: Intraosseous (IO) Hand/Foot Techniques
Shockwave & Laser for Bone/Joint Applications
Ultrasound-Guided Spine Injections (SI Joint, Iliolumbar, Sacrotuberous, etc.)
Open Lab & Faculty Q&A
Instructors: **All Lab Faculty**

TRACK 3: SPINE INTERVENTIONS (INTERMEDIATE/ADVANCED)

Ideal for: Advanced clinicians with spine injection experience.

Lumbar Epidurals – Interlaminar & Transforaminal
SI Joint Injections & Facet Joint Injections
Intradiscal Lumbar Techniques
Bone Marrow Aspirate Concentrate
Shockwave & Laser Integration in Spine
Intraosseous (IO) Knee & Hip Applications
Elective: MFAT Applications
Open Lab & Faculty Q&A
Instructors: **All Lab Faculty**

Qualify for ABIPP Competency Certification in Regenerative Medicine

The 31.5 CMEs you earn at the TOBI Webinar, Lab, and Symposium meet the certification requirements!

Fulfill the requirements of the continuum of education in regenerative medicine as follows:

1. Completion of requirements of primary board certification OR Completion of competency certification in Interventional Pain Management or completion of ABPM.
2. Fulfill unrestricted licensure requirements to practice medicine in the United States.
3. Successfully complete written examination for competency in Regenerative Medicine.
