American Society of Interventional Pain Physicians
ASIPP® 2016 ANNUAL MEETING
IN COLLABORATION WITH THE TEXAS PAIN SOCIETY

JOIN US!

It is our distinct pleasure and honor to invite you to one of the fastest growing events in the Interventional Pain Management field, the American Society of Interventional Pain Physicians' (ASIPP®) 18th Annual Meeting, **INNOVATIONS IN IPM FOR SUCCESS**, in collaboration with the Texas Pain Society. The meeting will take place in Dallas, Texas on Friday, April 15 through Sunday, April 17, 2016, at the **Hyatt Regency Dallas**.

Because of our continued success of the 17th Annual Meeting, we are again departing from our tradition of meeting in Washington with the Capitol Hill advocacy activities, for the Annual Meeting to focus solely on our Annual Meeting. In an effort to meet the needs of interventional pain physicians and other providers as well, we have created an educational program of the highest caliber, tailored to the needs of physicians, mid-level providers, and staff.

In keeping with recent years, this year's program is one of our most exciting, educational, and enlightening of any annual meeting we have held. This year's educational events will include practice management, controlled substance management, regenerative medicine, interventional techniques, abstract presentations, Resident/Fellow section for emergence into practice, and much more.

We offer an extensive practice management session with multiple and intensive coding and compliance lectures. This session is ideal for physicians, but also invaluable for staff. Consider it a valuable investment for your practice. They will walk away armed with the information they need to better tackle the billing and coding issues they face.

The faculty includes experts in the field of Interventional Pain Management, drug therapy, practice management, and current affairs that impact you. Whether you are a member of ASIPP®, or have yet to become a member, we are confident that this event will provide the information needed to help you in the evolving specialty of interventional pain management.

We have invited **Robert Laszewski** to provide this year's **Manchikanti Distinguished Lecture**. "No one has a greater knowledge of the Washington health policy scene than Bob Laszewski --- political, economic, social, and straight merit dimensions. Bob also has uncanny forecasting powers... and he calls the shots exactly as he sees them, unusual for Washington." - John McLaughlin, The McLaughlin Group. He is a national expert on Health Policy. Mr. Laszewski is president of Health Policy and Strategy Associates, Inc. (HPSA), a policy and marketplace consulting firm specializing in assisting its clients through significant health policy and market changes.

Albert Telfeian, MD, PhD and **Laxmaiah Manchikanti, MD** will present the **Raj-Racz Distinguished Lectures**. Albert Telfeian, MD, PhD, is director of pediatric neurosurgery at Hasbro Children's Hospital. He was the recipient of the American Association of Neurologic Surgeons Stereotactic and Functional Neurosurgery Research Award, the American Epilepsy Society Young Investigator Award, and the J. Kiffin Penry Pediatric Epilepsy Award, and was named one of the nation's 15 leaders in neurosurgery in the October 2011 edition of Newsweek. Laxmaiah Manchikanti, MD is the Chairman of the Board and CEO of ASIPP® and SIPMS. He is a highly sought after source by national media and government on IPM issues. He is the author of numerous books and hundreds of articles, as well as a leading advocate for IPM.

We are also honored to have the following Keynote speakers; On Friday ASIPP® board member **Dr. Devi Nampiaparampil**, 'Doctor Devi', will speak during the Resident/Fellow section. She regularly appears on national TV and other networks. **Kenneth Pettine, MD** and **William D. Murrell, MD** will speak Saturday. Dr. Pettine founded The Spine Institute. Dr. Murrell is an author, innovator, international lecturer, stem cell pioneer, and biologic treatment expert. The meeting keynote speaker for Sunday is Susan Blank, MD, Co-Founder and Chief Medical Officer of the Atlanta Healing Center.

We are excited to present the ASIPP® 18th Annual Meeting in the great city of Dallas, Texas. On behalf of the Board of Directors of ASIPP® and the Texas Pain Society, we welcome you to join us for one of the fastest growing, most exciting, distinguished, and beneficial meetings all year. Don't miss this unique opportunity.

GENERAL INFORMATION

ACCREDITATION STATEMENT

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The Institute for Medical Studies and The American Society of Interventional Pain Physicians. The Institute for Medical Studies is accredited by the ACCME to provide continuing medical education for physicians.

AUDIENCE

The courses are intended to present interventional pain management specialists, nurses, and other healthcare providers an in-depth review of multiple areas of interventional pain management.

OBJECTIVES

- Consider and discuss uncommon therapies for common conditions through emerging technology.
- Consider and discuss Regenerative Medicine.
- Consider and discuss Lumbar Endoscopy.
- Consider and discuss Practice Management.
- Consider and discuss Ultrasound-Guided Procedures
- Consider and discuss the uncertainties in today's healthcare environment.
- Identify, consider and discuss fraud and abuse and various compliance issues.
- Learn and discuss ways to prevent medical errors through correct billing and coding.
- Identify, consider, and discuss various aspects of the utilization of drug therapy in your practice.
- Getting started and involved with starting a practice and the business of pain medicine.
- Consider and discuss various interventional techniques.

OUTCOME

Participants in the ASIPP® 18th Annual Meeting will learn to operate comprehensive interventional pain care centers more efficiently, so that patients will receive the best care available. They should leave with greater knowledge of interventional pain management as it applies to their patients and practice.
