FROM THE COURSE DIRECTORS

On behalf of the Board of Directors of the American Society of Interventional Pain Physicians (ASIPP®), we invite you to one of the most comprehensive and useful educational conferences available anywhere. The ASIPP® Comprehensive Review Courses and Competency Examination in Coding, Compliance, and Practice Management will be held at the Hyatt Chicago Magnificent Mile hotel in Chicago, IL, on June 26-27, 2017.

Since we began offering the Competency Review courses in 2005, they have become recognized as **“must attend”** training events for interventional pain physicians and physicians just entering interventional pain management or in-training and physicians appearing for board examinations by various boards. The Coding, Compliance, and Practice Management course is so beneficial to practices, both office-based and ASCs, that many physicians send their staff to keep them current on the cutting edge aspects of practice management.

This intensive review course is designed to present interventional pain management specialists and other health care providers an in-depth review of multiple areas of interventional pain management—the areas we were never taught, yet are crucial for our survival. The course features many nationally-recognized experts in practice management.

In addition to the review course, the American Board of Interventional Pain Physicians (for physicians) and the American Association of Allied Pain Management Professionals (for non-physicians) offers the opportunity for examination in order for physicians to obtain competency certification and non-physicians to obtain associate certificates in Coding, Compliance and Practice Management. Now the exam is being offered at two separate times: on Thursday evening at 6:30pm or Friday at 8:00am.

We hope you will join us in the Windy City for this special educational event. Whether you have practiced pain medicine or interventional pain management for years, if you are new to the discipline, or if you are in training—the ever-changing field of coding, compliance, and practice management associated with interventional pain management makes this an essential course. Please join us.

Sincerely,

Hans Hansen, MD

STATEMENT OF NEED

This comprehensive review course is planned as a CME activity to prepare for competency certification or an in-depth review in areas of Coding, Compliance and Practice Management. This review course is based on the American Board of Interventional Pain Physicians' specifications for competency certification examinations.

This course will provide in-depth evaluation of the knowledge of the participants with extensive review of subject(s).

As part of these comprehensive, in-depth, intense review courses, ASIPP® will provide participants with online material of the lectures.

EDUCATIONAL OBJECTIVES/TARGET AUDIENCE

The course is intended to present interventional pain management specialists, nurses, and other healthcare providers an in-depth review of multiple areas of coding, compliance, and practice management.

EDUCATIONAL OBJECTIVES FOR CODING, COMPLIANCE, AND PRACTICE MANAGEMENT:

- Discuss documentation for IPM
- Review practice management topics
- Discuss coding and billing
- Examine compliance issues

OUTCOME

The Coding, Compliance, and Practice Management course will educate you on how to operate an interventional pain care center more effectively, so that patients will receive the best care available.
