GENERAL INFORMATION

STATEMENT OF NEED

This comprehensive review course is planned as a CME activity to prepare for competency certification or an in-depth review in areas of **Comprehensive Regenerative Medicine Review Course**. This online webinar course is based on the American Board of Interventional Pain Physicians' specifications for competency certification examinations.

This course will provide in-depth evaluation of the knowledge of the participants with extensive review of subject(s).

As part of these comprehensive, in-depth, intense review courses, ASIPP® will provide participants with online material of the lectures.

EDUCATIONAL OBJECTIVES/TARGET AUDIENCE

The review course is intended to present interventional pain management specialists, nurses, and other healthcare providers an in-depth review of multiple areas of regenerative medicine for interventional pain techniques.

Educational Objectives for the

Comprehensive Regenerative Medicine Review Course:

- Provide high-quality, competent, safe, accessible, and cost-efficient services to your patients
- Improve existing skills and/or develop new skills in the delivery of Regenerative Medicine
- Incorporate interventional techniques in treating your patients so that patients have better outcomes and reduced side effects

OUTCOME

The **Comprehensive Regenerative Medicine Review Course** course will educate you on how to operate an interventional pain care center more effectively, so that patients will receive the best care available.
