RE: Amniotic Tissue Intraarticular Injections

Dear MAC Directors:

Recently, many of the physicians are being bombarded by letters enticing them into injecting amniotic tissue for intraarticular injections or sometimes other interventional techniques.

We feel that there is no basis for this and it is dangerous for the public.

We would appreciate if you would publish or issue a bulletin warning the public in general and providers of these inaccurate representations. These bills can accumulate into several thousand dollars on each patient.

Thank you for your consideration. If you have any questions, please feel free to contact us.

Laxmaiah Manchikanti, MD

Chairman of the Board and Chief Executive Officer, ASIPP and SIPMS

Co-Director, Pain Management Centers of America

Medical Director, Pain Management Centers of Paducah and Marion,

Ambulatory Surgery Center and Pain Care Surgery Center
